

„Magie der Klangschalen“

Konzert: Kristallklangschalen mit Carlos

„Imagine: you are sitting on a soft cushion on a warm floor. Pure tones float into your awareness, some high, some low, in a soft rhythm and, somehow, your whole body is more relaxed than you've felt it for ages. This isn't only music, not only sound; it seems to have a physical presence. The phrase „music of the spheres“ comes to mind. Like a warm, velvet vibration. The stars are here on earth.“
